PASSION SPAS
HISTORY

Passion Spas is at the forefront of world-class spa development and production. For nearly thirty years, Passion Spas has been engineering and manufacturing spas known for exceptional innovation and superior design. Passion Spas has manufacturing and distribution centers all over the world.

We know that you expect quality and performance in your spa, and our experience tells us that you desire a spa that is reliable, easy to maintain, and inexpensive to operate. After all, you want your spa to enhance your lifestyle.

Passion Spas are sold through select dealers whose experience and commitment to quality and service matches our own. We listen to our customers, and the input we receive is used to further improve the quality and performance of our spas. Passion Spas customers have come to appreciate the impressive simplicity of our spa offerings, since all possible options are included. Each of our four spa collections comes with an array of standard features designed to enhance your spa experience. You can be confident that your spa will provide years of affordable enjoyment for you and your family.

PASSION SPAS PROFESSIONAL DESIGN

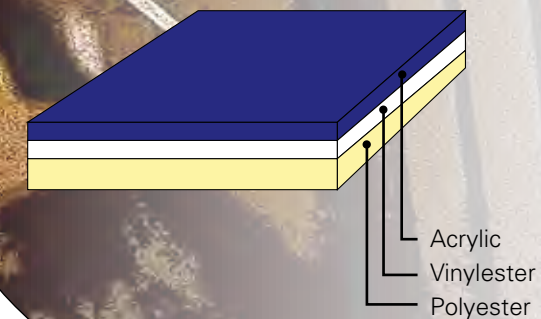

Breathtaking spa designs with exceptional seating comfort

At Passion Spas, designing great spas is our specialty and our passion. We go to great lengths to ensure that every detail of the spa contributes to your comfort and creates the ultimate relaxation experience. The pleasing lines of the spa shell are both attractive and functional, providing strategic locations for lighting, jets, and features. Controls are within easy reach, seat contours and depths provide maximum comfort, and there are a variety of seating options in each spa for your enjoyment. Beautiful waterfalls, LED lighting, and aromatherapy are only some of the features we include to enhance your spa experience. Your Passion Spa is a work of art designed to deliver functional beauty to your home or backyard.

PASSION SPAS PRECISION ENGINEERING

Design and construction that make Passion Spas the best in structural integrity.

Passion Spas are designed to perform and built to last. Quality components and precise manufacturing combine to create one of the most fully featured and innovative spas available. Our acrylic shell is reinforced with vinyl-ester resin laminates that are applied by hand. The shell is supported by a durable synthetic support structure that will ensure that you can enjoy your spa for years to come. The entire base of the spa is enclosed with our Everlast synthetic floor support, providing integral seat supports and structural integrity. Passion Spas deliver superior design, quality components, and experienced craftsmanship in a spa that will provide you and your family with years of enjoyment.

Durable Synthetic Support Structure

Everlast™ Synthetic Floor Support

PASSION SPAS PHYSICAL THERAPY

Passion Spas offers the most innovative spa massage features ever developed

Each Passion Spa has a variety of massage features that will create the ultimate in hydrotherapy relief for you. Through years of experience and close cooperation with physiotherapists, we have designed a variety of massage experiences that are unique to Passion Spas.

Aqua Rolling Massage™

Our exclusive Aqua Rolling Massage™ pushes water up the back of the seat through specially designed recesses in the spa shell.

The resulting agitation of the water creates a vigorous massage that

works the muscles throughout your back.

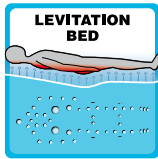

Intense Therapy Zone™

The Intense Therapy Zone™ provides a concentrated, penetrating massage to the lower regions of your back. The intensity of the pressure can be adjusted.

Only Passion Spas offers a therapy system for your lower back muscles that

allows you to isolate specific areas with the intensity of massage you desire.

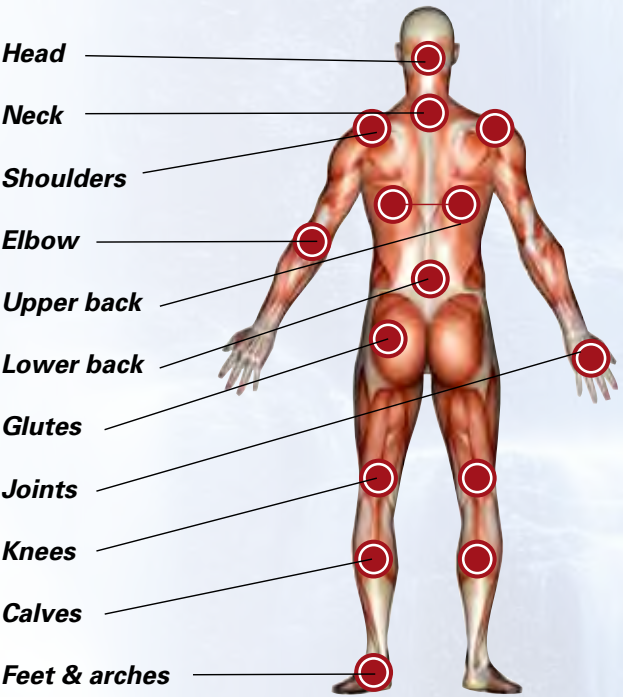

Levitation Bed™

The Levitation bed™ is the most innovative spa massage feature available.

Experiencing this massage will give you a floating sensation because your body is completely enveloped in a soothing massage that can be adjusted for intensity and

effect. You can lie either face down or face up, giving you a full head to toe massage that is simply amazing. The Levitation Bed™ is the only one of its kind and offered exclusively by Passion Spas.

Waterfall Massage™

Imagine a continuous stream of cascading, warm water falling gently on your neck and shoulders. This is the sensation you experience when enjoying the delightful effects of our innovative Waterfall Massage™. When finished,

you will exit the spa with your upper back and neck feeling totally and completely relaxed.

Therapy Wave Zone™

The Therapy Wave Zone™ is a massage that starts at the lower back, and slowly works its way up from your lower back to your shoulders and neck. The sensation mimics a cushioned rolling pin running up and down your back, soothing your

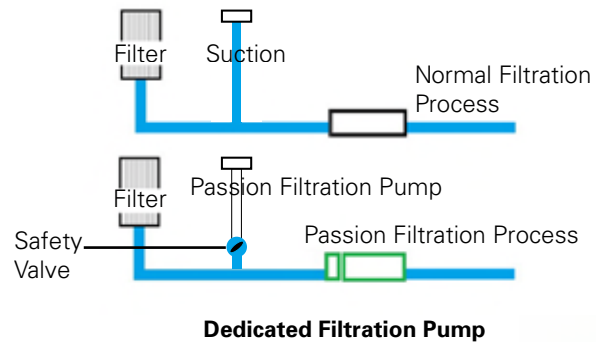

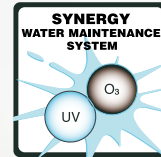

muscles as it works its way from your lower back to neck.

PASSION SPAS PERFECT WATER

Amazingly clear water due to our synergy water purification system.

Passion Spas are equipped with a multi-faceted water purification system that helps keep your water crystal clear and reduces the need for additional water sanitation and maintenance. The sole purpose of our dedicated filtration pump is to draw water through the spa filter, insuring that your spa water is constantly being filtered regardless of whether the massage pumps are operating. The water is sanitized by means of our highly effective Ozone System and, in our Signature and Exclusive Collections, further purified with our UV sanitation system. The combination of 100% filtration, ozone sanitation and UV purification creates our Synergy Water Maintenance System that creates the ultimate in clear water.

Ozone System

UV Sanitizer

Synergy Water Maintenance System

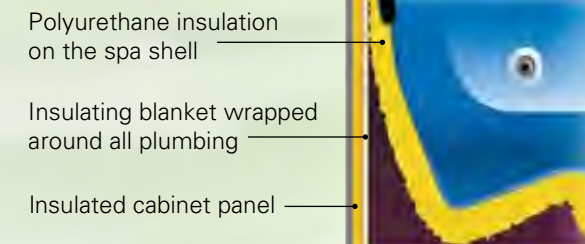

PASSION SPAS PLANET FRIENDLY

Award winning Hybrid Heating technology™ for exceptional energy efficiency.

While you are enjoying your Passion Spa, you are being a good steward of both your budget and the environment. Passion Spas are designed to reduce energy consumption through a variety of innovative features. Hybrid Heating™ technology supplements the heat produced by the electric heater. Specially designed massage pumps agitate the water molecules through friction, which generates heat, thereby easing energy consumption by the heater. Our programmable controls allow you to set the times when your spa will turn on and off, and the low-wattage filtration pump uses only a small amount of electricity to keep your water sparkling clean. Triple layer insulation, extra thick walk-on safety cover and Everlast™ floor support shroud your Passion Spa with one of the most effective heat containment designs available.

PASSION SPAS PROTECTION FOR YOU

Product support for today, tomorrow, and as long as you own your Passion Spa

At Passion Spas, we build great spas and value long-term relationships. We want you happy with your spa today, tomorrow and in the future. Our experience in the spa business allows us to design and build great spas, using only the best components, and backing our spas with exceptional support to our dealers. To that end we select dealers who share our commitment to customer relationships. We then work with our dealers to provide the support they need before and after the sale. Enjoy your Passion Spa knowing that we will be here with the expertise, experience and dedication needed to support you in the years to come.

THE DREAM

PURE COLLECTION

The Dream is a one-piece molded spa that is designed for durability and comfort. The soft, pleasing contours of the Dream are both attractive and functional, creating comfortable seating for up to 5 people. Like all Passion Spas, the Dream provides substantial performance, allowing you to maximize your spa time immersed in total relaxation.

THE REFRESH

PURE COLLECTION

One of our most popular spas, the Refresh is a spacious 5-person spa combining bench, bucket and lounge seating. Seat configuration and jet placements were designed with recommendations from a physical therapist, providing maximum therapeutic benefit and comfort. The soft pillows, accent LED lighting, and flowing contours contribute in making all Passion Spa designs unmatched in beauty, performance and enjoyment.

Full specification page 35

- Capacity: 1380 L
- Dry Weight: 250 KG

THE RELAX

PURE COLLECTION

With three bucket seats and two full-size loungers, the Relax Spa is an optimal choice for spending time with family and friends. The loungers have been designed to provide additional lumbar support. Also the loungers have different heights to accommodate individuals of various lengths, making it comfortable for everyone to use. Passion Spas worked with professionals from the recliner industry to create this unique design. Additionally, adjustable jets allow you to control the intensity of your hydrotherapy experience, and the unit also features an Ozon Sanitazion System for exceptional water quality. As a whole, the Relax Spa is cost-effective, energy-effective, high-performance investment in healthful relaxation.

THE REPOSE

PURE COLLECTION

The Repose Spa incorporates three ergonomic loungers, each in a different size to accommodate people of different heights. Each lounge has exceptional lumbar support for the ultimate in comfort and relaxation. Every Passion Spa is designed to be very energy efficient due to our triple insulation and energy Sipping pumps. In addition, every spa comes standard with our exclusive Hybrid Heating™, a unique innovation that captures water friction from the pumps and converts it to heat. Passion Spas are the ultimate in comfort and energy efficiency.

THE PLEASURE

SIGNATURE COLLECTION

The Pleasure Spa is constructed to last a lifetime and was designed with exceptional attention to detail. Improved reclining capabilities, extra lumbar support, and updated massage functions all combine to make this fully-featured model the ultimate choice for personal therapy. Our innovative Aqua Rolling Massage is a great example. When on full power, it generates an intense massage stream that works its way up from the lower back all the way up to the base of the neck. The intensity of this massage feature is adjustable. Standard features include soft air massage, StarBrite LED lighting, and an Aromatherapy System, and all Signature Series Spas come with an MP3 system complete with integral speakers mounted in the spa shell. When all is said and done, it isn't surprising that the Pleasure Spa has earned the distinction of being one of our most popular models.

EXERCISE

FITNESS COLLECTION

The Exercise Spa is a model specially developed by the Passion Spas design team to be the first Fitness spa in the world! The Exercise Spa provides a variety of fun and healthy activities for your workout, all in a compact spa in the comfort of your own home. Use the integrated resistance bands or rowing bars to build upper body strength, or hop on the stationary Aquabike for a low-impact, high-performance workout. Carefully positioned adjustable jets generate a current for a personalized cycling experience. The model also features two seats for an excellent post-workout massage and come equipped with our Aqua Rolling Massage. This is an exceptionally strong, effective, and vigorous massage that pushes water up the spine, starting at your lower back and working its way up to your neck, easing and loosening sore muscles as it goes.

**NEW
MODEL
2017**

Passion Spas is the only Swim Spa manufacturer in the world to offer Current-Lift Technology™, enabling the swimmer to remain prone on the water surface at any degree of current intensity.

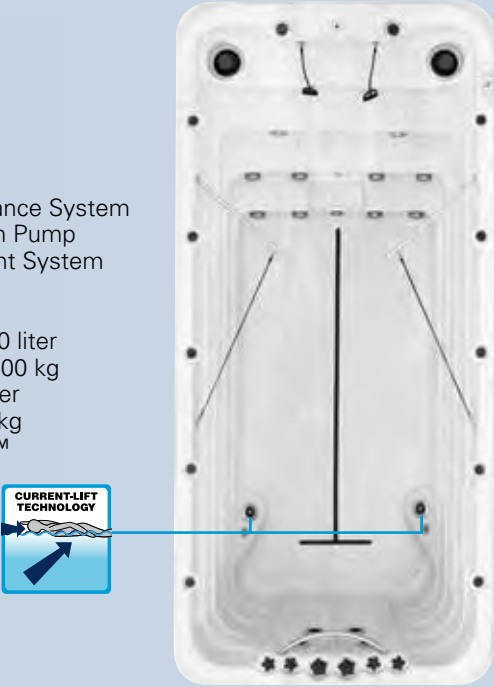

The Fitness Collection of Swim Spas is designed to provide an authentic swimming experience that adjusts to the intensity of your workout. Our innovative Current-Lift technology™ was developed by Passion Spas and automatically adjusts the water current to the intensity of your workout. As you decrease the force of the upper two swim jets, the lower swim jets automatically increase in intensity, creating more “lift,” providing more buoyancy as your swimming speed decreases. The faster you swim, the less lift if needed from the lower jets and the flow is directed to the upper jets for a stronger current. Swim Spas in the Fitness Collection also include Rowing Gear, Access Step and Synergy Water Maintenance System as standard features.

SWIMSPA THE ENERGY

FITNESS COLLECTION

The Energy Swim Spa, fully featured with a long swim lane and over 100 jets, is an impressive authority in the Passion Spas Fitness Collection. In addition to our Current Lift Technology™, which is an invention of Passion Spas to keep the swimmer prone on the water surface, there is Aqua Rolling Massage™, Intense Therapy Zone™, Therapy Wave Zone™, and Waterfall Massage™. The Energy also includes our innovative Levitation Bed, a top-to-toe full-body massage feature that creates a deeply relaxing floating sensation. Furthermore, with two seats and one lounger, there's plenty of room to share. The Energy is also divided into a swim and spa section with Dual Zone heating. This allows you to stay cool during your workout and then sooth your tired muscles in the hot water of the spa.

- Dimensions Standard: 720 x 228 x 128 cm
 - Dimensions Deep: 720 x 228 x 152 cm
