# PASSION SPAS PHYSICAL THERAPY

## Passion Spas offers the most innovative spa massage features ever developed

Each Passion Spa has a variety of massage features that will create the ultimate in hydrotherapy relief for you. Through years of experience and close cooperation with physiotherapists, we have designed a variety of massage experiences that are unique to Passion Spas.

### Aqua Rolling Massage™

Our exclusive Aqua Rolling Massage™ pushes water up the back of the seat through specially designed recesses in the spa shell.

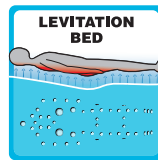

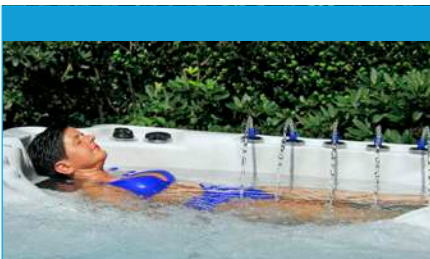

The resulting agitation of the water creates a vigorous massage that works the muscles throughout your back.

### Intense Therapy Zone™

The Intense Therapy Zone™ provides a concentrated, penetrating massage to the lower regions of your back. The intensity of the pressure can be adjusted.

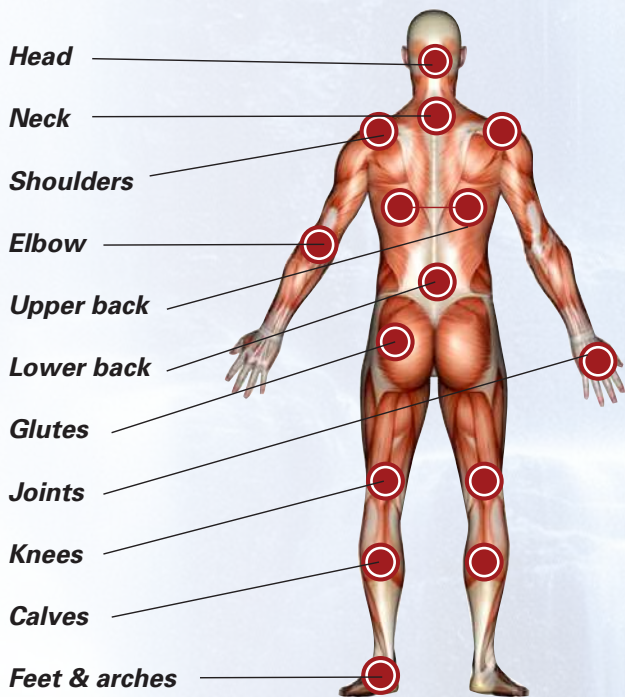

Only Passion Spas offers a therapy system for your lower back muscles that allows you to isolate specific areas with the intensity of massage you desire.

### Levitation Bed™

The Levitation bed™ is the most innovative spa massage feature available.

Experiencing this massage will give you a floating sensation because your body is completely enveloped in a soothing massage that can be adjusted for intensity and effect. You can lie either face down or face up, giving you a full head to toe massage that is simply amazing. The Levitation Bed™ is the only one of its kind and offered exclusively by Passion Spas.

### Waterfall Massage™

Imagine a continuous stream of cascading, warm water falling gently on your neck and shoulders. This is the sensation you experience when enjoying the delightful effects of our innovative Waterfall Massage™. When finished, you will exit the spa with your upper back and neck feeling totally and completely relaxed.

### Therapy Wave Zone™

The Therapy Wave Zone™ is a massage that starts at the lower back, and slowly works its way up from your lower back to your shoulders and neck. The sensation mimics a cushioned rolling pin running up and down your back, soothing your muscles as it works its way from your lower back to neck.

# PASSION SPAS PLANET FRIENDLY

**Award winning Hybrid Heating™ technology for exceptional energy efficiency.**

While you are enjoying your Passion Spa, you are being a good steward of both your budget and the environment. Passion Spas are designed to reduce energy consumption through a variety of innovative features. Hybrid Heating™ technology supplements the heat produced by the electric heater. Specially designed massage pumps agitate the water molecules through friction, which generates heat, thereby easing energy consumption by the heater. Our programmable controls allow you to set the times when your spa will turn on and off, and the low-wattage filtration pump uses only a small amount of electricity to keep your water sparkling clean. Triple layer insulation, extra thick walk-on safety cover and Everlast™ floor support shroud your Passion Spa with one of the most effective heat containment designs available.

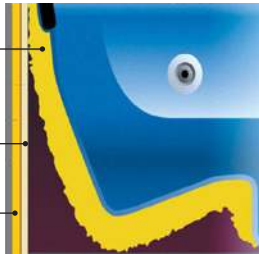

## Triple Layer Insulation

# PASSION SPAS PERFECT WATER

## Amazingly clear water due to our synergy water purification system.

Passion Spas are equipped with a multi-faceted water purification system that helps keep your water crystal clear and reduces the need for additional water sanitation and maintenance. The sole purpose of our dedicated filtration pump is to draw water through the spa filter, insuring that your spa water is constantly being filtered regardless of whether the massage pumps are operating. The water is sanitized by means of our highly effective Ozone System and, in our Signature and Exclusive Collections, further purified with our UV sanitation system. The combination of 100% filtration, ozone sanitation and UV purification creates our Synergy Water Maintenance System that creates the ultimate in clear water.

## PASSION SPAS PROFESSIONAL DESIGN

### **Breathtaking spa designs with exceptional seating comfort**

At Passion Spas, designing great spas is our specialty and our passion. We go to great lengths to ensure that every detail of the spa contributes to your comfort and creates the ultimate relaxation experience. The pleasing lines of the spa shell are both attractive and functional, providing strategic locations for lighting, jets, and features. Controls are within easy reach, seat contours and depths provide maximum comfort, and there are a variety of seating options in each spa for your enjoyment. Beautiful waterfalls, LED lighting, and aromatherapy are only some of the features we include to enhance your spa experience. Your Passion Spa is a work of art designed to deliver functional beauty to your home or backyard.

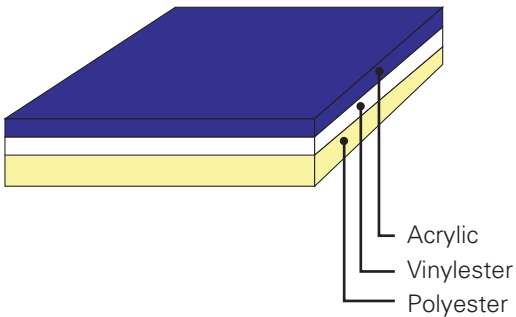

## PASSION SPAS PRECISION ENGINEERING

### **Design and construction that make Passion Spas the best in structural integrity.**

Passion Spas are designed to perform and built to last. Quality components and precise manufacturing combine to create one of the most fully featured and innovative spas available. Our acrylic shell is reinforced with vinyl-ester resin laminates that are applied by hand. The shell is supported by a durable synthetic support structure that will ensure that you can enjoy your spa for years to come. The entire base of the spa is enclosed with our Everlast synthetic floor support, providing integral seat supports and structural integrity. Passion Spas deliver superior design, quality components, and experienced craftsmanship in a spa that will provide you and your family with years of enjoyment.

**Durable Synthetic Support Structure**

**Everlast™ Synthetic Floor Support**

## PASSION SPAS PROTECTION FOR YOU

### **Product support for today, tomorrow, and as long as you own your Passion Spa**

At Passion Spas, we build great spas and value long-term relationships. We want you happy with your spa today, tomorrow and in the future. Our experience in the spa business allows us to design and build great spas, using only the best components, and backing our spas with exceptional support to our dealers. To that end we select dealers who share our commitment to customer relationships. We then work with our dealers to provide the support they need before and after the sale. Enjoy your Passion Spa knowing that we will be here with the expertise, experience and dedication needed to support you in the years to come.

One of the corner bucket seats in the new Refresh Spa has been upgraded with rotational jets. The rotational jets enhance the hydrotherapy experience, massaging key muscles in the back and stimulating the surrounding tissue. The other corner seat has been updated with an adjustable vibrating massage jet, providing an alternative type of massage therapy. Passion Spas has collaborated with professionals from the recliner industry to create the ultimate in lumbar support and comfort, which has led to an enhancement in the lounge seat. Small AquaRolling jets have been installed in the leg contours of the loungers, creating a massage that stimulates circulation in the direction of the heart. Of course, the many standard features you have come to appreciate in the Refresh Spa remain. These include Hybrid Heating™, Energy Efficient Filtration Pump, BioLok, Ozone Sanitation, Aromatherapy, and much more.

With its cubical layout and geometric lines, the Serene Spa has a clean and progressive design to complement elegant, modern tastes. It features subtle backlighting positioned behind the molded pillows and around the perimeter of the spa under the shell lip. This desirable spa represents the best in both design and function and comes with high-performance Hybrid Heating™ to help you achieve and maintain the desired temperature while saving energy.

The Exercise Spa is a model specially developed by the Passion Spas design team to be the first Fitness spa in the world! The Exercise Spa provides a variety of fun and healthy activities for your workout, all in a compact spa in the comfort of your own home. Use the integrated resistance bands or rowing bars to build upper body strength, or hop on the stationary Aquabike for a low-impact, high-performance workout. Carefully positioned adjustable jets generate a current for a personalized cycling experience. The model also features two seats for an excellent post-workout massage and come equipped with our Aqua Rolling Massage™. This is an exceptionally strong, effective, and vigorous massage that pushes water up the spine, starting at your lower back and working its way up to your neck, easing and loosening sore muscles as it goes.

The Dynamic Swimspa is an excellent blending of two worlds. On one side you have all the comfort and therapy benefits of the Pleasure spa, on the other side the swim function that is equipped with Passion Spas' unique Adjustable River Swim System and Current-lift Technology™. The Adjustable River Swim System exists of 5 large swim jets, positioned linear to each other, creating a steady flow of water over the entire width of the swim spa. You can control the intensity of the water stream, and when doing so, the flow is equally divided over the whole width of the current. Because this unique technique, the water stream covers a wide area and is effectively positioned below the water surface, enabling you to swim with your head comfortably above water. If you decrease the intensity of the Adjustable River Swim System, the Current-Lift Technology™ is automatically activated, enabling the swimmer to remain in the prone position.

**Passion Spas is the only Swim Spa manufacturer in the world to offer Current-Lift Technology™, enabling the swimmer to remain prone on the water surface at any degree of current intensity.**

The Fitness Collection of Swim Spas is designed to provide an authentic swimming experience that adjusts to the intensity of your workout. Our innovative Current-Lift technology™ was developed by Passion Spas and automatically adjusts the water current to the intensity of your workout. As you decrease the force of the upper two swim jets, the lower swim jets automatically increase in intensity, creating more “lift,” providing more buoyancy as your swimming speed decreases. The faster you swim, the less lift if needed from the lower jets and the flow is directed to the upper jets for a stronger current. Swim Spas in the Fitness Collection also include Rowing Gear, Access Step and Synergy Water Maintenance System as standard features.

# SWIMSPA ENERGY – ENERGY DEEP

## FITNESS COLLECTION

The Energy Swim Spa, fully featured with a long swim lane and over 100 jets, is an impressive authority in the Passion Spas Fitness Collection. In addition to our Current Lift Technology™, which is an invention of Passion Spas to keep the swimmer prone on the water surface, there is Aqua Rolling Massage™, Intense Therapy Zone™, Therapy Wave Zone™, and Waterfall Massage™. The Energy also includes our innovative Levitation Bed, a top-to-toe full-body massage feature that creates a deeply relaxing floating sensation. Furthermore, with two seats and one lounger, there's plenty of room to share. The Energy is also divided into a swim and spa section with Dual Zone Temperature. This allows you to stay cool during your workout and then sooth your tired muscles in the hot water of the spa.
